2. Terms and conditions

The Port Authority reserves the right to revise the port tariff during the year.

2.1. Fees and Invoicing

2.1.1. The fee is based on GT (Gross Tonnage) according to the 1969 measurement rules, unless otherwise stated in the tariff. When a vessel calls at Luleå Port for the first time, or if the vessel has been rebuilt since its last call, a valid measurement certificate according to the 1969 rules must be presented by the shipping company or its agent.

2.1.2. The prices listed below are stated in SEK and apply to a complete call, i.e., for arrival and departure to and from the port area.

2.1.3. Advance payment may apply. Luleå Port AB reserves the right to require a bank guarantee.

2.1.4. No additional vessel fee is charged if a vessel leaves the quay within Luleå's general port area* but remains within the VTS area of Luleå*. However, this does not apply to vessels that have completed cargo operations and then anchor "for orders" within the VTS area.

2.1.5. Vessels passing through the port area are charged half the fee.

2.1.6. Vessels calling at the port without loading or unloading passengers or cargo are charged half the port fee if the stay is less than 24 hours. If the stay exceeds 24 hours, the full fee applies. After one day, berthing fees are charged based on the vessel type and quay.

2.1.7. **Environmental discounts** are granted provided registration is completed in accordance with the rules for ESI (www.environmentalshipindex.org) or CSI (cleanshippingindex.com).

2.1.8. Vessels with at least 30 points under ESI or a minimum of 4 stars under CSI receive a 5% discount on vessel fees based on GT.

2.1.9. Vessels certified under Commission Implementing Regulation (EU) 2022/91 are granted a discount of 0.05 SEK per GT on waste management fees upon presentation of the certificate.

2.1.10. Notification of registration and compliance with the above conditions must be submitted via email to ekonomi@portlulea.com.

Waste

2.1.11. Delivery of sludge must be ordered no later than 24 hours prior to the vessel's arrival according with instruction on port website and with portcontrol@portlulea.com in copy. Uncanceled deliveries will be invoiced.

2.1.12. The waste management fee covers the costs for normal waste quantities. LHAB reserves the right to charge additional special costs beyond the normal amounts.

2.1.13. An additional charge will be applied for the extra costs incurred by Luleå Port AB, or its contractor, if:

- The "notification of waste delivery from vessels" is not made on time according to Swedish law and Luleå Port AB's regulations, or significantly deviates from the actual inspection.
- The waste/sludge contains foreign substances, solvents, or detergents.
- The waste does not originate from the vessel's normal operations.
- Drums and containers with oil residues or hazardous waste are not correctly packed and labeled with their contents.
- If delivery and storage do not occur in designated areas.
- Delivery does not take place at the agreed time.
- The vessel does not provide personnel for sludge delivery.
- The pump capacity for sludge is less than 5 m³ per hour.

2.2. Cargo fees

2.2.1. Applicable quays and fees

2.2.1.1. UDDEBO ENERGIHAMN, CEMENTAKAJEN

For goods handled within the port area but not over the quay, the same fee applies as for goods handled over the quay.

2.2.1.2. SANDSKÄR
